

Makers! Doodle, draw, and Zentangles.

If you like coloring, like so many of us do for its relaxing qualities, then you might like to try this idea. The pattern (8.5 x 11 in) is found under free downloads. We suggest **using Colored Pencils** to get in those smaller spaces.

Our design is a combination of doodling and Zentangles. If you don't know Zentangles – here are a few books you might like... Please consider looking up Zentangle patterns also.

If this heart seems overwhelming to color – we offer a few steps to help.

1. Start coloring with one color first. Place the color in places all around the heart.

2. Add a second color - again - coloring all around the heart.

3. So far, we used hot pink, red and violet.

go around with many colors to finish...

Good Luck and enjoy.
