

## Crafter – The fabric scrap valentine pillow.

**It's not too late to create** your very own fabric scrap pillow. You will find all the steps listed below. It might look complicated, as “Alfie, the Alpaca,” says... “too much work” for him. So he opted out of a video. (Next time we will ask “Eddy” because she loves pink.)

**Step 1:** Gather your red and pink fabric – maybe even purple!

**Step 2:** Cut squares, rectangles and triangles to fit together on a white background heart pattern. If you have never tried fusing fabric together – this might be a good project to experiment.

then stitch on the top in a decorative way.

**Step 3:** Choose a back fabric. We choose a bright pink fluffy fleece.

and add a pink ribbon to sew

Only problem is that this fabric is very messy when you cut it.

**Step 4:** Sew right sides together. Make sure you leave an opening for stuffing.

**Step 5:** After your stuff and sew the opening together – try some embellishment! Here is what we did.

And the finished project...

It's not just a pillow but it can hang on the wall or a door knob or perch on a book shelf.  
Add candy and gift to a special person!
